

The Timesco new & improved XLED handles provide exceptionally bright white illumination from a replaceable LED bulb supplying consistent, flicker free light & maximising battery life due to low power consumption. They are available in medium, small & stubby size and are compatible with reusable & single use blades.

CE marked

Fully autoclavable (excluding bulb)

Supplied with multilingual instructions

Extensive guarantee

Latex-free

ISO 7376 compatible

Compatible blades are colour coded

Replaceable, long life LED bulb

SPECIFICATION

A polished metal collar reflects and directs light up towards the fibre core of the blade for maximum illumination.

Colour coded band to clearly identify it is ISO 7376 fitting compatible with green fitting blades and clearly marked with the XLED logo, product code, CE mark and LOT number.

The metal handle is fully autoclavable (excluding bulb) and covered by a 5 year guarantee or 4,000 autoclaves, whichever is sooner. Refer to our website www.timesco.com for full terms and conditions.

Available in medium, small & stubby size and are compatible with green fitting reusable & single use blades.

High performance & reliability from a super-bright replaceable 3v LED bulb providing excellent, flicker free, white illumination.

The bulb provides 3 x more lux output than other leading brands with an exceptional lux output of 40,000 (at bulb) and a consistent colour temperature of 5,000(k).

The XLED handle works with dry cell or rechargeable batteries without requiring a voltage of 3.5v. Intelligent electronics control the light intensity to provide consistent, reliable & flicker free illumination, even at low battery voltages.

Knurled handle design provides excellent grip. Secure screw cap for easy access to batteries.
