

The Timesco Callisto Eclipse blades are single use to reduce the risk of cross infection; with a rigid metal spatula, lever and tilting tip allowing greater flexibility and control during difficult intubations.

Available in Macintosh sizes 3 and 4 as blade only or as a convenient set with the Timesco Callisto Preloaded Handle.

SPECIFICATION

Highly polished 4mm acrylic core for maximum illumination.

Supplied in boxes of 10 when sold individually or boxes of 5 when sold as a set.

Rigid metal spatula looks and feels like a reusable fibre optic blade.

No touch hook prevents the blade from touching the handle.

Single use logo clearly marked on the product.

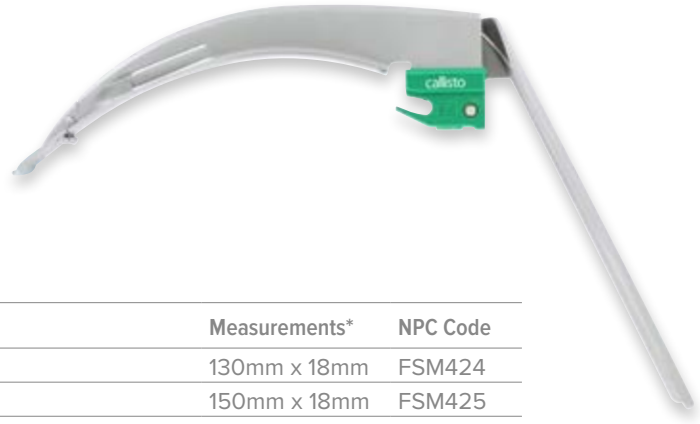

Green ISO 7376 fitting plastic block compatible with green fitting single use and reusable handles.

2 metal ball bearings for secure fitting.

Tilting tip for elevation of the epiglottis, providing an improved view of the larynx, without excessive force.
