Features & Benefits

Switch & save

The TourniButton is a quality product offering savings when compared to other single use tourniquets available on the market. Contact us today to see how much you could save.

Patient comfort

The latex free TourniButton uses a soft, elasticated material for patient comfort. For larger arms multiple TourniButtons can conveniently be joined together.

Easy to use

The TourniButton is easy to reposition & tighten. It features a simple single handed release for quick removal and each box is supplied with multilingual instructions.

Protection from cross-infection

As it is effectively impossible to disinfect reusable tourniquets, single use tourniquets are recommended to protect against cross infection².

Cut the cost of HCAs

The WHO advises that annual financial losses due to health care-associated infections (HCAs) are significant. They are estimated at approximately €7 billion in Europe and approximately US\$ 6.5 billion in the USA¹.

Economical

This product is competitively priced, without compromising on quality.

The Timesco TourniButton: Quality at a competitive price.

Product Information:

Timesco Code: D80.200
Quantity: Box of 100
Band Size: 375mm x 23mm
Material: TPE Band

Carton Size & Quantities:

Quantity: 20 boxes per carton
Size: 51cm x 25cm x 42cm
Weight: 15kg

Pallet Size & Quantities:

Quantity: 24 cartons per pallet
Size: 100cm x 120cm x 143cm
Weight: 372kg
