SPECIFICATION

FEATURES

Fully autoclaveable metal blade, covered by a 5 year guarantee or 4,000 autoclaves, whichever is sooner. See website for full terms and conditions.

The non-replaceable glass fibre bundle is fully enclosed in the blade which allows easy cleaning.

Rigid metal construction from fully autoclaveable, antimagnetic stainless steel.

Clear product information etched on the blade.

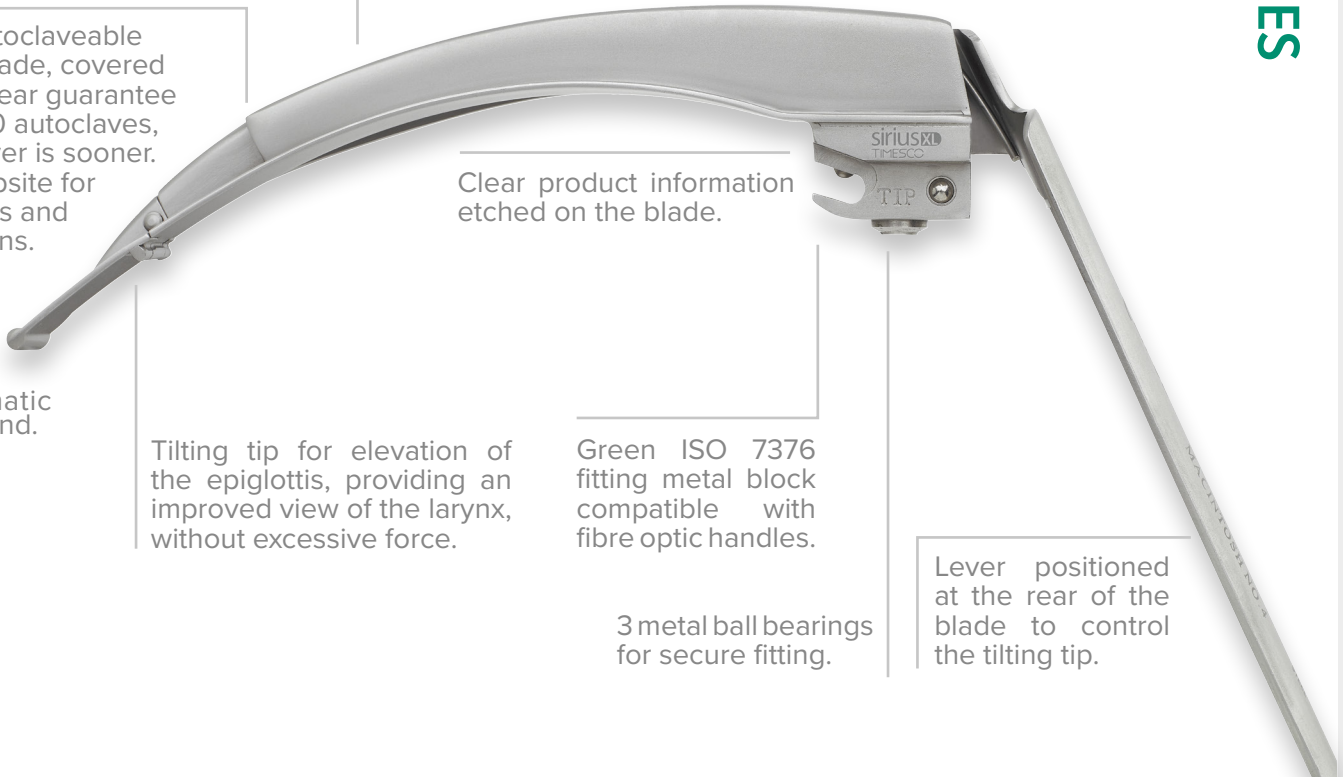

Atraumatic distal end.

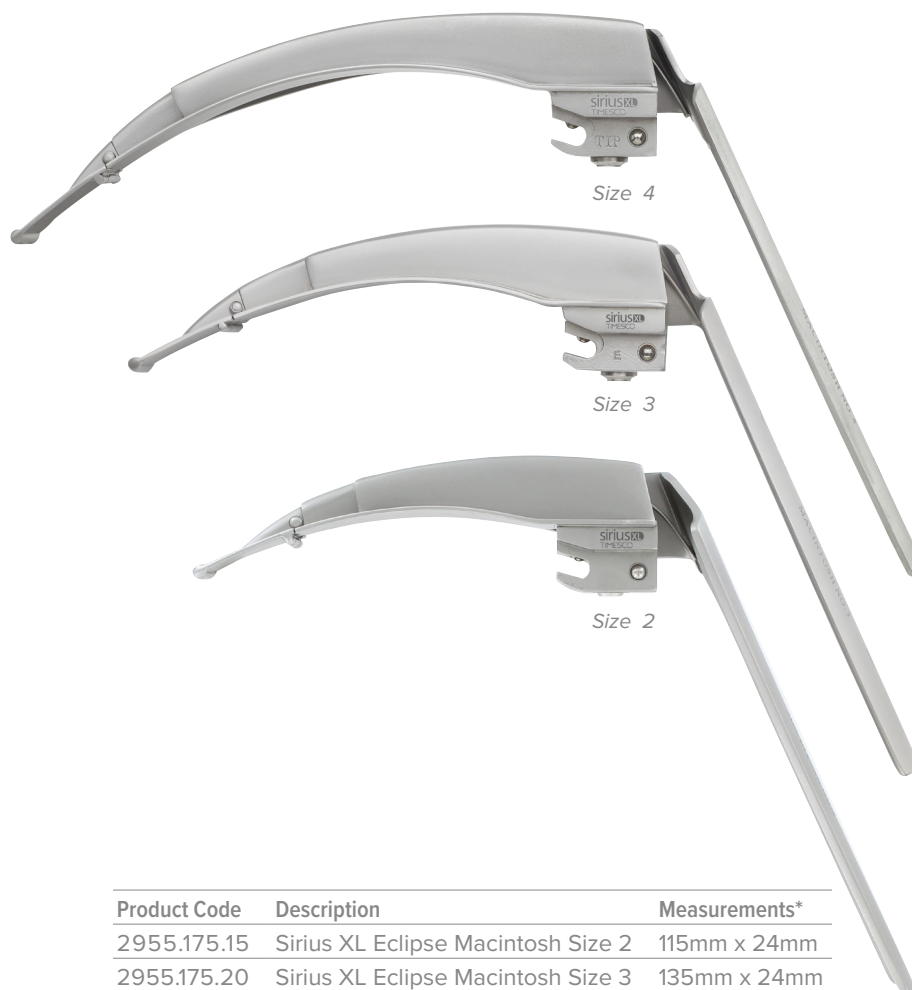

Tilting tip for elevation of the epiglottis, providing an improved view of the larynx, without excessive force.

Green ISO 7376 fitting metal block compatible with fibre optic handles.

3 metal ball bearings for secure fitting.

Lever positioned at the rear of the blade to control the tilting tip.
