

Introducing Callisto+

A cost-effective, ready-to-use single-use laryngoscope solution from Timesco Healthcare

The new Callisto+ laryngoscope range offers healthcare professionals a convenient and reliable option for airway management. Pre-assembled and designed for single-use, Callisto+ delivers the same trusted performance as the original Callisto range but at a more affordable price point. Ideal for hospitals and clinics seeking a balance between quality, safety, and cost efficiency, Callisto+ is now available

- Pre-assembled, single-piece unit: No need for assembly—ready to use straight from the packaging.
- Available in Mac and Miller blades: Suitable for a wide range of patients and procedures.
- Blade Material: Spatula: S/S AISI200 Series
- Tactile rubberised handle: Ergonomically designed for a comfortable and secure grip.
- Reliable performance: Built on Timesco's heritage of quality, delivering dependable functionality in every procedure.
- Easily dispose of the internal battery safely and responsibly.

Designed for Convenience

Callisto+ is engineered to simplify clinical procedures. With a permanently attached blade and handle, this single-use laryngoscope is ready for immediate use, saving critical time during intubations. It offers the high standards of patient care that Timesco is known for, while reducing the need for reprocessing between uses.

With over 60 years of experience, Timesco Healthcare delivers reliable and innovative solutions for clinicians. The Callisto+ range embodies our commitment to high-quality, affordable medical devices that help healthcare professionals provide safe and effective patient care.
